DEMO/RESEARCH PROJECT
USING
HERBIVORES

WHAT IF

NEPA / CEQA Became Law

In CALIFORNIA

So that all **SRA Land** (approximately 50%)

Would Be Restricted Grazing!!! Cattle - Goats -Sheep

ON ALL RANGELAND

WHAT WOULD BE

The ultimate fire hazard on Rangeland?

After 1-year?

Massive!

The only remaining tools would be:

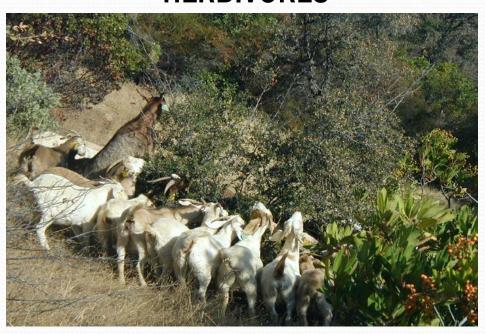

- 1. Prescribed Fire
- 2. Mechanical
- 3. Chemical

1. Prescribed Fire2. Mechanical

- 3.Chemical
 - 4. Grazing!!!

DEMO/RESEARCH PROJECT
USING
HERBIVORES

DEMO/RESEARCH **PROJECT** IN RED BLUFF -PURPOSE-

EXPOSE DEMONSTRATION & RESEARCH TO DECISION MAKERS

*

- Legislative Leaders (State & Federal)
- Government Agencies (State & Federal)

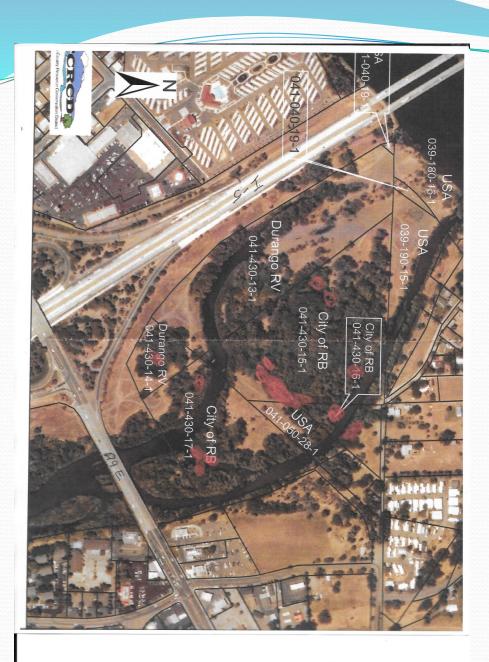

How to Use Herbivores on Chaparral and

Forest Lands

TO CONTROL BIOMASS

* MAINLY LADDER-FUEL

* BRUSHES AND GRASSES

Site #1 East Sand Slough

CITY OF RED BLUFF East Sand Slough

TARGETED GRAZING PLOT SITE #1

TARGETED GRAZING PLOT
Site #2

Possible Opportunities

- Coordination between Demo and Research Segments.
- Collaboration with Fiscal Agent TCRCD (Tehama County Resource Conservation District)
- 3. Mendo Nat'l Forest and Nepa
- 4. RMAC (or.....not so much!)

So, Where do we go from here?
